

The background of the dashboard is a dark blue gradient with abstract bokeh light effects. It features several financial data visualizations: a line chart at the top with multiple data series in light blue and white, some with circular markers; a candlestick chart in the lower center showing price fluctuations; and a bar chart at the bottom with vertical bars of varying heights. Numerical data points are scattered across the chart areas, including 16.36, 23.94, 28.17, and 37.29.
